The Adventure of Night Angel

Hi, my name is Night Angel. Let me tell you about my back story. I was born in Mississippi. I always wanted to be a scientist. I was 7 years old when I watched my Mom and Dad die. Ever since that time I wanted to be a Superhero. When I turned 18, I mixed my DNA with a Falcon. Three days later I grew wings. The first day my back started itching so I started scratching. It got worse throughout the morning, so I went to the Doctor. The Doctor told me to stop whatever I was doing, so I did. The second day my back started hurting so I took some medicine, but it got worse. I called in sick. I stayed in bed all day. The third day my body started to change form. I looked in the mirror. I couldn't believe my eyes. IT WORKED!!!

The next day I started training. I built an obstacle course. I learned how to fly. I flew to outer space and a radioactive wave hit me. I got knocked out for five minutes. Weeks later I got Xray vision, super strength, super speed. I started fighting crime. Years fighting crime a huge monster started killing innocent people. He called himself the Destroyer. First, he tried to ask why he was killing people. He said his family died. Then I tried working with him to fix his problem. It turns out that his family was on vacation. So the monster told me his real name. It was Jeff. Jeff helped me clean up the mess he made. Night Angel became friends with Jeff years later. That's the backstory ladies and gentlemen.
